Optional Text/Additional Information:

Not all CPC Core Modules are created equally. Here's the APEX difference...

- ✔ APEX Anesthesia Review is CRNA owned and operated.
- ✔ Our modules include 23 Class A credits, and we'll automatically report credits for all active AANA members.
- ✔ APEX gives you 3 ways to learn with animated video presentations, streaming audio, and printable PDFs.
- ✔ Enjoy an engaging learning experience with images and animations created by our in-house certified medical illustrator.
- ✔ Stressed about a post-test? Get 3 attempts to pass and have the option to take the tests "open-book."
- ✔ Learn to apply the latest evidence and get just the right amount of review to tie it all together.
- ✔ Want to go more in-depth on a topic? We'll provide links to hundreds of abstracts and articles, so you can learn more about the topics that interest you most.
- ✔ Our modules are recognized by the NBCRNA and prior approved by the AANA.
- ✔ Receive instant access to all 4 modules immediately after enrolling in the course.
- ✔ Get all 4 modules for \$249 (with your state association member code), and don't worry about modules again for another 4 years.
- ✔ We've helped thousands of CRNAs meet their CPC requirements. We can help you too.
