“As board member, my goal is to further the objective of CRNA practice by working with our leadership team at WANA to protect our scope of practice and educating the public of our role in Washington State. Protecting our profession from the proliferation of AAs is objective number 1. Furthering the public’s education and advocating for our profession for its fullest practicing potential (especially QZ billing) will be top priorities for me if elected board member.

My experience includes being the first to bring AANA representation to my anesthesia school, being interviewed several times on anesthesia podcasts and invited to speak on multiple occasions at both the state and national levels. I have practiced in 3 different states in a variety of practice setting (independent to strict ACT) and negotiated independent solo contracts in Washington, while never undervaluing our skills as Nurse Anesthetists. Thank you.”

Additional Information: *“I served 28 years in the US Army in and out of healthcare. I have worked in 17 military and civilian hospitals in 5 states, in Locums and military positions, not including deployments. As a soldier I was not able to participate in CRNA advocacy outside of voting and social media discussions due to my military duties and frequent moves. Now, as a civilian I want to repay my debt to all those CRNAs that protected and built our profession. As a WANA Board of Directors member, I would like to continue the professional stewardship, career and practice advocacy, and public service provided by my colleagues. I believe in teamwork, transparency, communication, and customer service.*
